BAR SERVICES

Edge Catering is happy to assist with providing extensive bar services for your celebration in two ways. First, is our full service bar, where Edge provides the liquor license and product for service, which is billed back to the client, and the second is service only, where the client provides the liquor license and product for service, which is handled by Edge with a handling fee.

All of our staff are SIR certified as required by BC liquor licensing regulations. Additional fees for bartending staff, rentals, non-alcoholic drinks, special bar mixes and garnishes are applicable with these event services.
